

Sec. 10-195. - Limits on aeronautical activities.

- (1) The following types of aircraft and other aerial devices may not be operated on the airport without the prior written authorization from the airport director:
  - (a) Ultralight aircraft.
  - (b) Unmanned aerial vehicles.
  - (c) Kites, model airplanes, tethered or non-tethered balloons, rockets and similar aerial devices.
- (2) Use of any portion of the airport as a designated drop zone for parachute jumping or skydiving shall be prohibited without the prior written approval of the airport director and control tower, and further shall require a lease or permit authorizing use of the designated portion of the airport for a drop zone.
- (3) The airport director may seek review by the FAA upon receipt of an application to conduct one of the foregoing aeronautical activities. In the event that the airport director grants approval to conduct an aeronautical activity, the director's approval shall be in the form of a directive authorizing the applicant and other similarly-situated entities the right to conduct the aeronautical activity and prescribing specific conditions on use of the airport for the aeronautical activity. The authorized aeronautical activity shall be conducted in conformity with such directive, all applicable requirements contained in the Federal Aviation Regulations, and any other conditions as may be imposed by the control tower.

(Ord. No. G-2012-13, § D(IV), 3-26-2013)
